

*You have 20 teeth when you are a baby and 32 teeth when you grow up. They also stop growing, but do you know a rabbit's teeth never stop growing?

*Like a human's fingerprint no two reindeer antlers are exactly the same.

*Sharks do not have a single bone in their bodies. Instead they have a skeleton made up of cartilage; the same type of tough, flexible tissue that makes up human ears and noses.

*Normally animals have pink tongues, but Giraffes have black tongues.

*Pandas spend around 12 hours a day eating bamboo.

*Walruses are grey or brown but turn a pinkish color as they age.

*Cicada is the loudest insect in the world.

*Elephants have the largest brain of any mammal; their brains weigh an average of 11 pounds.

*Flying Squirrels don't actually fly. They extend their arms and legs and leap and glide from tree to tree.

*For every human in the world, there are one million ants.

*In the wild, lions rest for around 20 hours a day

*A polar bear's fur is not white. Each hair is clear hollow tube. Polar bears look white because each hollow hair reflects the light.

*Zebras are ungulates. Ungulates are hoofed animals. Can you name some more ungulates?

*A flamingo can only eat when it's head is upside down.

*Instead of drinking water, frogs soak it into their body through their skin.

*Flies do not grow. They are born full size.

*Hummingbirds are the only types of birds that can fly backwards.

*Pigs are smarter than dogs! In fact pigs are very intelligent animals. They are the fourth smartest animal on the planet.

*Mosquitos are attracted to the color blue twice as much as to any other color.

*A gorilla can live for 40 – 50 years.

*Do you think cows bite grass off the ground, the answer is no! Rather they curl their tongues around it and pull!

*A rat can last longer without water than a camel.

*No penguins live in the North Pole!

*Cats have powerful night vision, allowing them to see at light levels six times lower than what a human needs in order to see.

*All polar bears are left pawed.

*Female dolphins are called cows, males are called bulls and young dolphins are called calves.

*Do you know that 12 honeybees have to spend their whole lives to make a teaspoon of honey!

*Bats always turn left when exiting a cave.

*Did you know that a Koala Bear isn't a bear at all but a marsupial? A marsupial is animal with a pouch.

*The hair that makes up a giraffes tail is about 10 times thicker than the average strand of human hair.

*The hippopotamus can survive underwater for up to 30 minutes without having to come up for air.
